ICOM

VHF FM TRANSCEIVER

IC-V200T

OWNER'S MANUAL

FOREWORD

Thank you for choosing the ICOM **IC-V200T**, one of the most advanced VHF mobiles equipped with a 5-Tone function on the Land Mobile market today.

Utilizing sophisticated computer based technology and ICOM's precision VHF engineering, the **IC-V200T** incorporates state-of-the-art design concepts and covers 146 ~ 174MHz frequency range to meet the demanding needs and requirements of the Land Mobile user.

UNPACKING

ACCESSORIES	QTY.
① Micropone (HM-45)	1
② DC power cable (OPC-044A)	1
③ Mounting bracket	1
④ Mounting support plate	1
⑤ Mounting bracket screws	4
⑥ Mounting screws (M5 x 20)	4
⑦ Mounting self-tapping screws (5 x 16 AO)	4
⑧ Mounting nuts (M5)	4
⑨ Flat washers (M5)	8
⑩ Flat washers (M4)	4
⑪ Star washers (M5)	4
⑫ Spare fuses (10A)	2
⑬ External speaker plug	1
⑭ Allen key wrench	1
⑮ Microphone hanger	1
⑯ Self-tapping screws (M4 x 10)	2
⑰ Flat washers (M4)	2

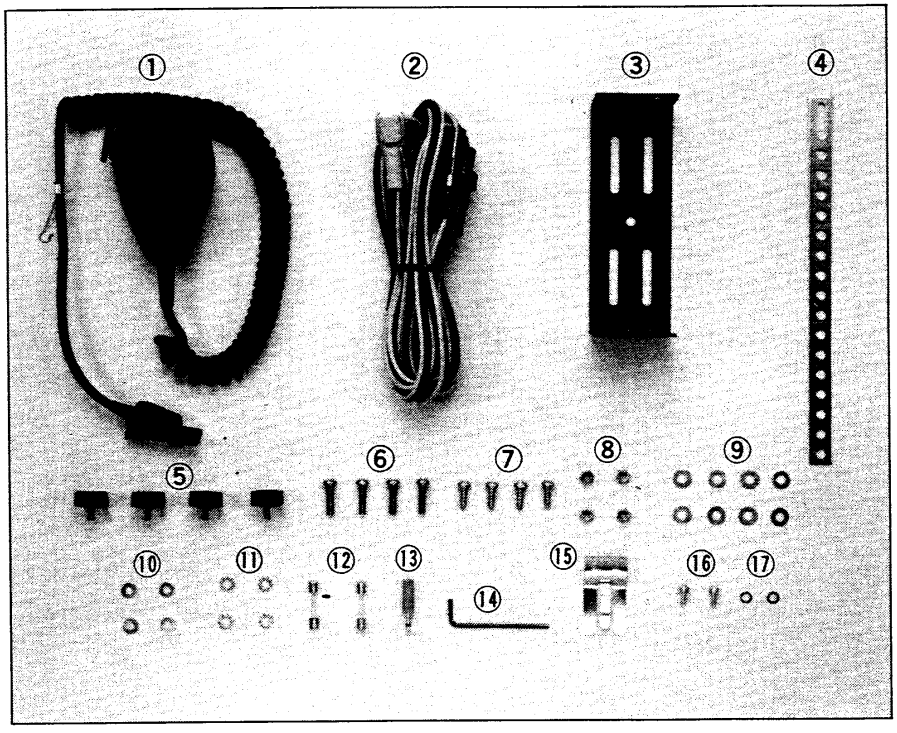

TABLE OF CONTENTS

SECTION 1 GENERAL OPERATIONS 1

1-1 RECEIVING 1

1-2 TRANSMITTING 3

1-3 CHANNEL SELECTING 4

SECTION 2 FUNCTION OPERATIONS 5

2-1 GROUP CALL 5

2-2 5-TONE CODE SELECTION 5

2-3 SCANNING 6

2-4 CHANNEL LOCKOUT 7

SECTION 3 CONTROL FUNCTIONS 8

SECTION 4 INSTALLATION 11

SECTION 1 GENERAL OPERATION

1 - 1 RECEIVING

1) Turn power ON.

2) Pully [VOL] CONTROL OUT.

3) Push [RESET] SWITCH.

4) Adjust [VOL] CONTROL.

5) Push [RESET] SWITCH.

6) Push [VOL] CONTROL IN.

1) Rotate the [VOL] CONTROL clockwise, to turn power ON.

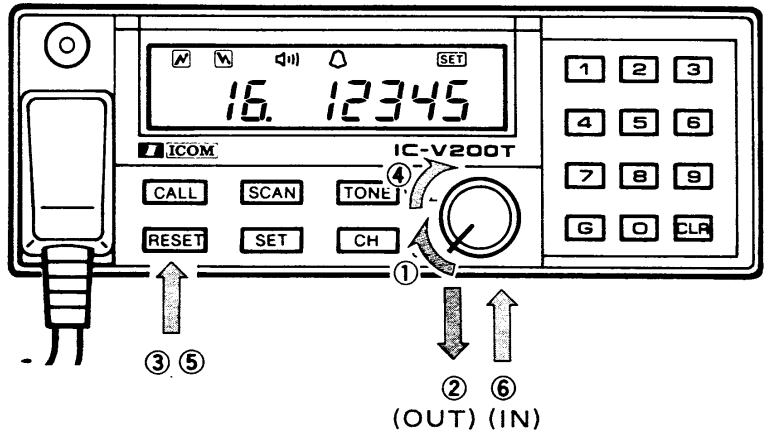
2) Pull the [VOL] CONTROL OUT to open the squelch function.

3) Push the [RESET] SWITCH to turn ON the monitor function.

4) Adjust the [VOL] CONTROL clockwise to a comfortable listening level.

5) Push the [RESET] SWITCH to turn OFF the monitor function.

6) Push the [VOL] CONTROL to close the squelch function.



7) When an individual code is received.

7) When the IC-V200T receives an **individual code,** the transceiver may be activated as follows depending on the pre-programming:

- "🔔" appears on the FUNCTION DISPLAY.
- An ALARM sound (one beep tone or a repetition of beep tones) is emitted.
- An answer back code is transmitted automatically.
- The last digit of the calling station's 5-Tone code is displayed.
- The monitor function is ON, and "🔊" appears.

8) When a group call code is received.

8) When the IC-V200T receives a **group call code,** the transceiver may be activated as follows:

- "🔔" appears on the FUNCTION DISPLAY.
- ALARM sounds (a repetition of beep tones) are emitted.
- The monitor function is ON, and "🔊" appears.

9) Push [RESET] SWITCH.

9) After finishing your communication, push the [RESET] SWITCH again and wait for the next call.
